DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 20 January 2006 has been entered.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. Claims 1-8 are allowed.

Claim 1 is limited to "a method of line matching for analog communications lines in telecommunications networks via at least one signal processor and/or programmable digital filter." The 1.131 affidavit filed 20 January 2006 has been entered and considered in accordance with the RCE filed 20 May 2006, and is effective in overcoming the applied Bershad et al. reference (US Patent Application Publication 2003/0219113). Thus, claim 1 is allowable over the cited prior art.

Claims 2-7 depend on claim 1, and thus are allowable over the cited prior art for at least the same reasons.

Claim 8 is limited to "a machine readable medium storing a program to control a computer to perform a method of line matching for analog communications lines in

telecommunications networks.” The 1.131 affidavit filed 20 January 2006 has been entered and considered in accordance with the RCE filed 20 May 2006, and is effective in overcoming the applied Bershad et al. reference (US Patent Application Publication 2003/0219113). Thus, claim 1 is allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
